## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### Sarasin Fund of Funds - Global Equity, a sub-fund of Sarasin Fund of Funds OEIC Class A Accumulation Shares

ISIN:GB00B7CLW252

This Fund is managed by Sarasin Investment Funds Limited

## Objectives and Investment Policy

### Objective

We seek to grow the Fund (through increases in investment value and income) over a rolling 5 year period after deducting fees and costs.

### Investment Policy

We generally invest 100% of the Fund's assets in other funds whose underlying assets will mainly be shares in companies from around the world.

The Fund can also invest in similar underlying assets directly. The fund is actively managed.

We may only use derivatives to maintain the Fund's value, manage investment risk and to gain cost-effective access to investments. Derivatives are financial contracts whose value is linked to the price of another asset (e.g. indices, rates, share prices, currencies).

The Fund's performance can be assessed by reference to a blended benchmark of:

- 50% - the MSCI All Countries World Total Return Index
- 50% - MSCI All Countries World Total Return Local Currency (GBP)

This blended benchmark represents a typical mix of assets held by the fund.

### Distribution Policy

Any income due from your investment is reflected in the value of your shares rather than being paid out.

### Dealing Frequency

You can buy and sell shares in the Fund before 12 noon GMT on any business day in London.

### Recommendation

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

For full investment objectives and policy details please refer to the Prospectus.

## Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the fund ranks in terms of its potential risk and return, calculated using the volatility of monthly returns over five years. As it is based upon how the fund has performed in the past, you should note that the fund may well perform differently in the future. The risk category shown is not guaranteed and may shift over time.

The higher the rank the greater the potential reward but the greater the risk of losing money.

The Fund is ranked at 5 reflecting observed historical returns. The fund is in this category because it has shown higher levels of volatility historically.

The following risks may not be fully captured by the Indicator:

- Counterparty and Settlement Risk: The fund may enter into derivative transactions in over-the-counter markets, which will expose the fund to the credit risk of their counterparties. The fund may be exposed to the risk of settlement default where the counterparty may default on its obligations to perform under the relevant contract. In the event of the bankruptcy or insolvency of a counterparty, the fund could experience delays in liquidating the position as well as significant losses, including declines in value during the period in which the fund seeks to enforce its rights.
- Derivatives: The Fund actively invests in derivatives, such as futures, options and swaps, which are linked to the rise and fall of other assets. Derivatives can only be used to manage the fund more efficiently in an attempt to reduce the overall risk of its investments, reduce the costs of investing or generate additional capital or income. Although this may not be achieved and may create losses greater than the cost of the derivative.
- Emerging Market Risk: Emerging markets may face more political, economic or structural challenges than developed markets and shares may be less liquid, meaning that investments may not be sold quickly enough to prevent or minimize a loss; they may therefore involve a higher risk than investing in developed markets.
- The fund has charges deducted from capital. This may reduce the potential for growth.

## Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	No charge
Exit charge	No charge
The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.	
Charges taken from the Fund over a year	
Ongoing charges	2.47%
Charges taken from the Fund under certain specific conditions	
Performance fee	No charge

The ongoing charges figure is based on expenses for the period ending 31.12.2020. This figure may vary from year to year. It excludes: portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling in another fund.

It includes:

- The fees charged by the underlying funds.
- For more information about charges, please refer to the relevant sections of the Prospectus available at [www.sarasinandpartners.com](http://www.sarasinandpartners.com)

## Past Performance

- Past performance is not a guide to future performance, prices may fluctuate and you may not get back your original investment.
- The performance figures include all ongoing charges and exclude any entry charges or exit charges.
- The past performance was calculated in GBP on a net asset value basis with gross dividends reinvested.
- The Fund was launched on 07/06/2012
- This Share Class was launched on 07/06/2012
- The Fund converted from a non-UCITS scheme to a UCITS scheme on 01/10/2015. Any performance figures prior to this date reflect the performance of the Fund had it been run as a UCITS scheme
