MANAGER COMMENTS FOR MPS RANGE

Our holding in the Sarasin Responsible Global Equity (GBP Hedged) Fund contributed positively to the portfolio's performance. Its holding in online retailer Amazon was beneficial as investments made in its retail business have started to improve efficiency and boost profitability. The holding in the Sarasin Tomorrow's World Fund also made a positive contribution. Its investment in holding in Broadcom, the chip designer involved in artificial intelligence (AI) functionality, had a positive impact as it finalised its takeover of cloud computing company, VMware.

In contrast, our holding in the Lazard Commodities Fund detracted from the portfolio's performance. The holding in the VF-MTX Sustainable Emerging Markets Fund also weighed on performance.

We sold our holding in the Lazard Commodities Fund during the quarter. It had provided the Sarasin Responsible Model Portfolios with broad exposure to commodity prices, which were likely to benefit in a world of heightened geopolitical risk. Our investment strategy played out well, with commodity prices climbing throughout the summer of 2023 and following the onset of the conflict in Gaza. However, since then prices have softened as fears of a wider conflict in the Middle East subsided and the global growth outlook has weakened. We reallocated proceeds from the sale to cash, pending reinvestment in other investment opportunities.

AN OVERVIEW

The Sarasin Responsible Model Portfolios

- Offer a choice of 5 risk rated, multi-manager, multi-asset portfolios which integrate stewardship and ESG, incorporating standard ethical restrictions
- Available on a number of retail platforms
- Active asset allocation and fund selection blending Sarasin global thematic funds and 'best-in-class' third-party funds from across the market. Passive funds may be used for uncontroversial asset classes.
