

SARASIN

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Sarasin Tomorrow's World Multi Asset, a sub-fund of Sarasin Funds ICVC Class L Acc

ISIN:GB00BLBPY645

This Fund is managed by Sarasin Investment Funds Limited

Objectives and Investment Policy

Objective

We seek to grow the Fund (through increases in investment value and income) over a rolling 5 year period after deducting fees and costs. The Fund seeks to invest in companies that purposefully set out to solve the problems of people and the planet profitably and do not cause significant environmental or social harm.

Investment Policy

We will invest 40% to 85% of the Fund in the shares of companies from around the world, although this allocation will most typically be around 60%. We will also typically invest 30% of the Fund in bonds issued by companies and governments, with the remaining 10% invested in alternative investments and cash. Exposure to any of the above asset classes may be obtained through investment in funds (including funds managed by Sarasin). Alternative investments include, but are not limited to, infrastructure, commodities and private equity/venture capital.

The Fund is actively managed and we have the freedom to deviate away from the typical asset mix.

We select companies to invest in from any country/region, sector or industry subject to the restrictions stated below. We identify the long-term investment themes that drive growth and lead to disruption in global economies and industries. We select companies based on our own analysis of which are most likely to benefit from these themes, and are well placed to grow their revenues and cash flows as a result of them.

Integral to this analysis is an in-house tool devised to examine and quantify any material environmental, social and/or governance ("ESG") factors. A comprehensive assessment of the related risks and opportunities resulting from these factors are then embedded within our financial modelling and analysis of companies.

We undertake fundamental analysis on bond issuers, which includes an evaluation of risks that ESG factors pose. We implement an in-house scoring system which combines our assessment of the materiality of ESG risks associated with each industry sector with data on each bond issuer to generate an overall issuer-specific ESG rating and only invest in bonds whose issuer has an ESG rating above a pre-determined level.

We avoid companies that are materially engaged in certain sectors, including the production of tobacco, alcohol, armaments, gambling, adult entertainment, thermal coal, the extraction of fossil fuel from tar sands, oil and gas extraction, production and refining, land mines, civilian firearms,

nuclear weapons and predatory lending. Further detail on how we do this is available in the Guide to Ethical Exclusions on our website at www.sarasinandpartners.com.

We also avoid investments that we have judged to cause any significant adverse impact to any of the environmental or social factors assessed through our in house ESG analysis tool. The investments available to this Fund might therefore be more limited than for less constrained funds that do not avoid such companies.

We engage as far as possible with companies to promote actions to mitigate material ESG risks identified with priority given according to the materiality of our concern, the size of our holding, and also our view of the ability for engagement to have a meaningful impact. Voting is integral to our engagement work and, where we are a shareholder, we seek to ensure our voting is aligned with our engagement priorities.

We may only use derivatives to maintain the Fund's value, manage investment risk and to gain cost-effective access to investments. Derivatives are financial contracts whose value is linked to the price of another asset (e.g. indices, rates, share prices, currencies).

The Fund's performance can be assessed by reference to the Investment Association Mixed Investment 40-85% sector as this represents a typical mix of assets held by the Fund.

Distribution Policy

Any income due from your investment is reflected in the value of your shares rather than being paid out.

Dealing Frequency

There are eligibility criteria applied to this share class meaning that from 01.01.2023 new investments can only be made by investors using a Model Portfolio Service. Such investors can buy and sell these shares before 12 noon GMT on any business day in London. Any other investors in this share class can sell these shares before 12 noon GMT on any business day in London.

Recommendation

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years. For full investment objectives and policy details please refer to the Prospectus. For further details on the Fund's sustainability approach please refer to the SDR Consumer Facing Disclosure document.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the fund ranks in terms of its potential risk and return, calculated using the volatility of monthly returns over five years. As it is based upon how the fund has performed in the past, you should note that the fund may well perform differently in the future. The risk category shown is not guaranteed and may shift over time.

The higher the rank the greater the potential reward but the greater the risk of losing money.

The Fund is ranked at 4 reflecting observed historical returns. The fund is in this category because it has shown moderate levels of volatility historically.

The following risks may not be fully captured by the Indicator:

- **Bond risk:** In stressed conditions bonds may become harder to sell in a timely manner, resulting in unpredictable changes in the value of your holding.
- **Alternatives risk:** The fund may invest in alternative assets that are difficult to sell quickly, difficult to value, include higher fees and potentially increase volatility in price compared to traditional assets such as equities, fixed income and cash. Such conditions could result in unpredictable changes in the value of your holding.

- **Derivatives:** Derivatives are financial instruments whose value is linked to the expected future price movements of an underlying asset. Derivatives such as futures, forward contracts, options and swaps may be used to seek to reduce risk within the fund, reduce investment costs and generate additional income for the Fund. Although this may not be achieved and may create losses greater than the cost of the derivative.
- **Exchange Traded Funds (ETFs) risk:** ETFs are subject to market fluctuation and the risks of their underlying investments. ETFs are subject to management fees and other expenses.
- **Operational Risk:** Operational risks arising from a failure or delay in operational processes and systems, or the failure of a third party provider may affect the value of your investments. Where this results in compensation needing to be paid, this may be paid some time after the original loss is experienced.
- **Counterparty and Settlement Risk:** The fund may enter into derivative transactions in over-the-counter markets, which will expose the fund to the credit risk of their counterparties. The fund may be exposed to the risk of settlement default where the counterparty may default on its obligations to perform under the relevant contract. In the event of the bankruptcy or insolvency of a counterparty, the fund could experience delays in liquidating the position as well as significant losses, including declines in value during the period in which the fund seeks to enforce its rights.
- **Charges deducted from capital:** The Fund has charges deducted from capital. This may reduce the potential for growth.
- **Further disclosure:** See "Risk Factors" in the Prospectus for more information about risks.

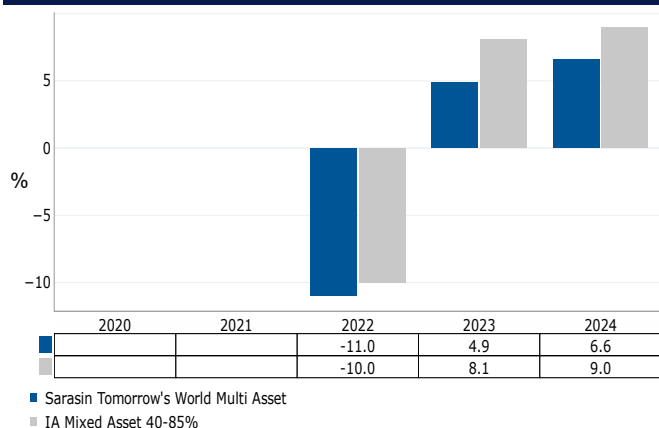

Charges

The charges you pay are used to pay the costs of running the fund

One-off charges taken before or after you invest	
Entry charge	No charge
Exit charge	No charge
The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this information by contacting your financial adviser.	
Charges taken from the Fund over a year	
Ongoing charges	0.75%
Charges taken from the Fund under certain specific conditions	
Performance fee	No charge

- The ongoing charges figure is based on expenses for the twelve month period ending 31/12/2024. This figure may vary from year to year. It excludes: portfolio transaction costs
- We may apply a dilution adjustment to the share price of the fund to cover the dealing costs when there are large inflows and outflows from the fund. This adjustment is in place to protect the value of existing investors' holdings.
- For more information about charges, please refer to the relevant sections of the Prospectus available at www.sarasinandpartners.com

Past Performance

*Source: Morningstar

- The chart shows the Fund's annual performance in GBP for each full calendar year over the period displayed in the chart.

- This Share Class was launched on 18/03/2021.
- The benchmark of this fund has changed over time. Please visit www.sarasinandpartners.com/docs/global/benchmarkhistory for a full history.
- Please see the Practical Information section for benchmark definitions.

Practical Information

Depository: NatWest Trustee and Depository Services Limited.

You can get further detailed information regarding the Fund, including how to buy, sell and switch units within the Prospectus, the Annual and Semi-annual Reports and Accounts and Company's latest Value Assessment report which are available free of charge from Sarasin & Partners LLP. These are available in English only. You can also call us on 0333 300 0373, or look on our website: www.sarasinandpartners.com for further information including the latest share prices.

Benchmark: Where applicable, the target benchmark is selected because it is representative of the type of investments in which the Fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. Where applicable, the comparator benchmark is selected because the Investment Manager and the Manager believe that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

Fund Information: The Fund is a sub-fund of the Sarasin Funds ICVC which is an investment company with variable capital incorporated under the OEIC Regulations. It is a UCITS scheme as defined in the FCA Collective Investment Schemes Handbook. This Key Investor Information Document describes a sub-fund of the Sarasin Funds ICVC and the Prospectus and Annual and Semi-annual Reports will be prepared for the entire Sarasin Funds ICVC.

Liability Statement: Sarasin Investment Funds Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the Fund.

Fund Liability: The assets of the Fund are segregated from those of the other sub-funds of Sarasin Funds ICVC; therefore, the assets of the Fund will not be available to meet a claim of a creditor or another third party made against another sub-fund.

Tax Legislation: The Fund is subject to the tax laws and regulations of the United Kingdom. Depending on your own country of residence, this might have an impact on your investment. For further details you should consult a tax adviser.

Remuneration Policy: The Remuneration Policy of the Manager, which describes how remuneration and benefits are determined and awarded, and the associated governance arrangements, is available at www.sarasinandpartners.com or free of charge from Sarasin & Partners LLP, Juxon House, 100 St Paul's Churchyard, London, EC4M 8BU.

Representative Share Class: This document contains information on L Acc only which have been selected as a representative share class of the Fund. Other share classes of the Fund are available and further details can be found in the Prospectus.
